

Vidaflex Monofil PET FR is an expandable sleeving produced from braided flame retardant polyester monofilaments. The yarn is treated with a non-burning agent. The special braid construction permits the sleeving bore to be expanded up to 300% and a particular feature is the retention of roundness.

Vidaflex Monofil PET FR is flame retardant and will operate at temperatures within the range -50°C to +150°C. It has excellent resistance to damage by mechanical abrasion and repeated flexing. The monofilaments will resist attack by salt water, oils and most common fuels and solvents.

APPLICATIONS

- Cable management (audio/video)
- Automotivel Hydraulic hoses, tubing and wiring harnesses.

FEATURES

- Flame retardant
- Flexible and expandable
- Easy installation

Vidaflex Monofil PET FR is available in Black (with Grey Tracer) or Grey (with Black Tracer).

PART NUMBERS:

PART NO.	COLOUR	INTERNA DIA. (MM)	MIN. BUNDLE DIA. (MM)	MAX. BUNDLE DIA. (MM)
PET FR 3MM BLK/GREY	Black Braid/Grey Stripe	3.0	2.4	6.4
PET FR 4MM BLK/GREY	Black Braid/Grey Stripe	4.0	2.0	7.0
